<https://github.com/thianp>

An aspiring frontend developer with full stack project experience using React JS and Node JS at Codecamp Thailand. Prior to the bootcamp, I have held a position at a fintech Startup, working on the company's in-app chatbot feature.

## Projects

### Petcation (Group Project)

An Airbnb website for pets where users can book holidays for their pets or become a host themselves

Features with scope of responsibility:

- Booking creation (Back and front end)
- Payment (Omise API)

### Homebody (Personal Project)

An e-commerce website for furniture and home appliances

Features

- Register / log in authentication using JWT
- Product database with complete CRUD operations
- Shopping cart
- Order creation
- Admin dashboard

## Experience

Sep 2021 – Feb 2022

### Product Development Associate, Mula-X

Improved the conversational structure of the customer service chatbot and added live chat and video calling features

Managed the telephony vendor for the loan collections system and drafted the IVR flow diagram

Worked with an outsourced vendor to develop a SCORM game about basic financial literacy for the Mula app's learning platform

Dec 2020 – Aug 2021

### Enabler Executive, Mula-X

Developed a customer service chatbot using Google Dialogflow

Analyzed and delivered requirements for the development of the Mula app's learning platform

Managed a team of outsourced content-creators

Drafted, translated, and filed legal documents

Jan 2020 – Apr 2020

### Project Management Office Intern, United Overseas Bank (UOB)

Identified internal sources contributing to high paper usage and compiled monthly reports as part of the company's cost optimization project

Set up meetings and workshops with responsible departments to introduce the paper usage reduction policy

Tracked and gave weekly reports on the overall status of 20+ projects using dashboards

## Education

Mar 2022 – Jul 2022

Codecamp Thailand, Thai Programmer Association  
Fullstack Javascript (Certificate)

Jul 2016 – Jun 2020

Chulalongkorn University  
Bachelor of Arts in Economics (EBA); GPA 3.08

## Skills

HTML, CSS, Javascript, React JS, Node JS, Sequelize

Languages: Thai (native), English (fluent – TOEIC 990), Mandarin Chinese (conversational – HSK3)

Ability to work independently without direct supervision and as a team member when required  
Strong communication and presentation skills, both oral and written
