

Thian Patcharaprakiti

83/646 Phayathai rd., Ratchatewi district, Bangkok, Thailand 10400

Email: pthpatchara@gmail.com

Tel: (+66)88-040-6321

Website: <https://thianp.com/>

A software developer with full stack project experience using React JS, Node JS, as well as Python (Django). After graduating from a bootcamp organized by the Thai Programmer's Association, I now work as a full-time developer. I am looking for a role that offers continuous learning opportunities into software development and design.

Professional Experience

Sep 2022 – present

Software Engineer (Full Stack), Appman

Worked on building new full stack features for the customer facing web app using React JS and Django for the frontend and backend, respectively
Integrated with the OCR product built by the company's internal machine learning team to display text extraction results for multiple document types
Engaged in weekly solution design sessions with the aim of long-term use and maintainability

Sep 2021 – Feb 2022

Product Development Associate, Mula-X

Continuously trained the customer service chatbot using Google's Dialogflow NLP engine
Managed the telephony vendor for the loan collections system and drafted the IVR flow
Worked with an outsourced vendor to develop a SCORM game about basic financial literacy for the Mula app's learning platform

Dec 2020 – Aug 2021

Enabler Executive, Mula-X

Developed a customer service chatbot using Google's Dialogflow
Analyzed and delivered requirements for the development of the Mula app's learning platform
Managed a team of outsourced content-creators
Drafted, translated, and filed legal documents

Personal Projects (Codecamp)

Petcation (Group Project)

An Airbnb website for pets where users can book holidays for their pets or become a host themselves

Features with scope of responsibility:

- Booking creation (Back and front end)
- Payment (Omise API)

Homebody (Personal Project)

An e-commerce website for furniture and home appliances

Features

- Register / log in authentication using JWT
- Product database with complete CRUD operations
- Shopping cart
- Order creation
- Admin dashboard

Education

Mar 2022 – Jul 2022

Codecamp Thailand, Thai Programmer Association
Fullstack Javascript (Certificate)

Jul 2016 – Jun 2020

Chulalongkorn University
Bachelor of Arts in Economics (EBA); GPA 3.08

Skills

HTML, CSS, Javascript, Typescript, React JS, Node JS, Python (Django), Sequelize
Thai (native), English (fluent – TOEIC 990), Mandarin Chinese (conversational – HSK3)
Ability to work independently without direct supervision and as a team member when required
Strong communication and interpersonal skills
